

## The Dragons Den and Other Stories

THE DRAGONS DEN and OTHER STORIES, is a small collection of quite diversified tales. The verity and subject matter come from a quality of experience, some from real life with authentic backgrounds and others generated in the mind of the myth. There are several adventure stories and yet others were pushed by an unseen influence of transformations and miracles, with a moral behind them. Here is something for everybody in twelve very different stories, a touch of romance and many with a twist in the tail, also a scattering of poems thrown in for good measure
