

First Term in the White House

White men came to America and pushed the Indians aside. Today it has gone full circle. The President of the United States is an American Indian. He represents the basic side of life with traditional ideas and talks of a country the way it used to be. He has the ability to govern the nation and the Indian heritage which gives him a love of the land. He is six foot two, brown eyes and hair. Not only is Steven a fine specimen of human anatomy and a striking American Indian but he just happens to be the first North American Native President of the United States. His ideals are of we the people and yet before this episode in his life has come to an end he will break all the rules.
