

Life Is Full Of It

Poems will help you to discover the power that organizes experiences and motivates souls. Poems will allow you to transcend the wind and come to know its strength though unseen. Poems will capture your attention and you will find out that life has many dimensions. Poems will help you understand that the best and greatest do not equate to perfect. Nevertheless, a poem will allow you to challenge that fact because that is the power of the poem. Its partners are overwhelming emotions and a healthy portion of external stimuli. Poems have definitions, but no real boundaries. We strive to understand the nature of a poem, but its interpretation is always changing. Armed with the power of the five senses, poems have an artillery that fuels the creative spirit.
