

Zombie Days, Campfire Nights

Millions died when the zombie plague swept the country. For the survivors, the journey has just begun. Jenna, Sam, and Lola are still alive. Jenna avoids human contact, traveling East Coast backroads with her boyfriend, a dog named Chicken, and a Louisville Slugger. Sam escapes to the mountains, where he's conscripted into a zombie-slaying militia sent on nightly raids to kill the undead...and innocent civilians. Lola is imprisoned in the safety of a zombie-free New Orleans hotel, but life grows more dangerous when her brother gets bitten by a zombie. Jenna arrives in the French Quarter, lured by the false promises of New Orleans' drunken leader. There, she's ripped away from her boyfriend, drugged, and dumped in a death camp after refusing Franklin's sexual advances. Jenna and Lola's lives collide there, where the dead live and the dying are victims of gruesome medical experiments. Escape isn't easy: release the genetically-enhanced zombies from the lab to create a diversion, slip away, and don't get eaten. When Sam arrives, will he join the right side of the battle?
