

Viva Cal Neva!

The book takes a 32 year old real estate maven from Florida, at his employers behest, to be a partner in a little casino in Nevada. From the beginning of the escapade, there are twists and turns as our hero finds out the ways of the world of gambling and chicanery. IF it was easy, anybody could do it. There is no completion to the tale, until the very last page of some 440 pages. Many of the persons involved in the plot are real people working under pseudonyms in the book. Many things happened in the book, exactly as they happened in real life - except - the tale is fiction. Any names or similarities with real people - living or dead - are purely coincidental.
