

# READING THE TEA LEAVES: INSIDE THE MIND OF YOUR TEENAGE CHILD

Are you tired of asking your child how their day was and having them say OK? This book will help you learn to engage your child and get them talking. Just imagine how it would be if your child told you about their day without an attitude or without feeling like you were pulling teeth. This book was co-authored by my children who are 15 years old and were the source for much of the information. They have helped me truly understand how children feel and what is needed to breakdown any barriers for successful parent child relationships.
