

## Plastic Design to BS 5950

This book examines the plastic design and behaviour of main frames--both low-rise industrial and agricultural, and multistorey. Representative topics, such as member and frame stability and restraints and connections, are explained in clear and detailed presentations, and will interest practitioners and students alike. Explanations are buttressed by many diagrams and numerous worked examples. Published on behalf of the Steel Construction Institute, the book was written by Professor J.M. Davies of the University of Manchester, and Brian Brown, chartered structural engineer.

We are committed to supporting your family during their grief, recognizing that grief is personal to each individual. We acknowledge we cannot make the pain go away, but through our efforts, we can make the grief journey less lonely and perhaps.. a little easier. Excellence We will strive to create the most personal and meaningful tribute to the person who died and support any appropriate requests to commemorate the life that was lived. Attention To Details Whether the service is in our chapel, your church, home or at the graveside - we offer ideas and options to make each service unique. Value We believe you should be able to pay your respects without paying your life's savings, that's why we offer our Fair Price Guarantee. Dignity No matter what type of service you choose, your loved one will be cared for with the same dignity and compassion that we would extend to our own family. Compassion We, too, are walking the journey of grief in our own family. So we understand, in ways that only someone who has gone through a great loss, could possibly know.
